PREFACE

The implementation of the constitution created increased demand for comprehensive and disaggregated statistical information to inform evidence-based policy formulation, budgeting process, monitoring and evaluation of various programmes at the county. The 2021 Uasin Gishu County Statistical Abstract (CSA) is the second of its kind to be developed by the County and will subsequently be produced annually.

The Statistical Abstract will be a single source of information covering various sectors of the economy at the county level for the period 2016 - 2020. The CSA substantially derived the data used from the administrative sources generated by Government agencies in the county. In addition, some statistics were compiled from various survey reports and 2019 Kenya Population and Housing Census.

The information published in this 2021 CSA will address data gaps at the county level and strengthen evidence-based decision making. The CSA is expected to provide a reliable source of information for planning, policy formulation, budgeting and monitoring and evaluation processes. The data contained in this CSA will, therefore, enable data users to gauge the performance of the county.

Additionally, in implementing and tracking the County Integrated Development Plan (CIDP), Kenya Vision 2030, and other plans, data will be instrumental. It is in this breadth that we have partnered with Kenya National Bureau of Statistics (KNBS) to strengthen the county statistics function.

ICT plays an important role in data management and statistics. The outbreak of Covid-19 pandemic has shown indeed, data and ICT are key ingredients for development. Thus, as a county we are committed to ensuring integration of ICT in data and statistics processes.

In conclusion, the county has an elaborate public participation framework from the ward level that we are leveraging on to champion for citizen generated data. We are welcome to work with all stakeholders to support citizen generated data in order to improve on the quality of statistical information, enhance dissemination and accessibility of statistics at the county level.

H.E. Hon Jackson K. Arap Mandago, EGH

GOVERNOR COUNTY GOVERNMENT OF UASIN GISHU

FOREWORD

The first principle in the United Nation's Fundamental Principle of Official Statistics states that official statistics provide an indispensable element in the information system of a democratic society, serving the Government, the economy and the public with data about the economic, demographic, social and environmental situation. To this end, official statistics that meet the test of practical utility are to be compiled and made available on an impartial basis by official statistical agencies to honour citizens' entitlement to public information. It is within this internationally accepted norm embedded in the Statistics Act, 2006, that the 2021 Uasin Gishu County Statistical Abstract (CSA) was produced.

In line with its mandate as the principal agency of the Government for collecting, analysing and disseminating statistical data and the custodian of official statistical information, the Kenya National Bureau of Statistics (KNBS) collaborated with County Government of Uasin Gishu to produce the 2021 Uasin Gishu CSA. In addition, KNBS is responsible for collaborating with and assisting the county governments or any other institutions in the production of official statistics; providing technical advice on statistics to other state entities; promoting co-ordination among producers, users and suppliers of official statistics by forming appropriate sector committees; and designating statistics produced by national statistical system as official statistics on being satisfied that the necessary criteria have been followed.

The 2021 Uasin Gishu CSA presents the official statistics produced by Ministries Departments and Agencies (MDAs) both at National and County Government of Uasin Gishu. This publication covers information for the period 2016 to 2020. The data is mostly from administrative records and sample surveys conducted within the period.

The production of the 2021 Uasin Gishu CSA has gone through all the recommended stages of producing official statistics. The statistics generated were validated by the MDAs within Uasin Gishu County both from National and the County Government. The data were reviewed by the technical team from KNBS and County Government of Uasin Gishu.

The 2021 Uasin Gishu CSA is categorised into an introductory chapter and four other chapters based on the classification of statistical activities undertaken by national and international statistical organisations. This classification follows the statistical subject-matter domains used in the Database of International Statistical Activities (DISA) with three domains of; Demographic and Social Statistics; Economic Statistics; and Environment and Multi-domain Statistics.

We welcome the readers to this publication and encourage them to provide feedback aimed at improving the contents and quality of future publications. The KNBS appreciates the collaboration that has resulted in the production of this publication which has immense information useful for planning and policy formulation for Uasin Gishu County.

Macdonald G. Obudho, MBS
Director General
Kenya National Bureau of Statistics

ACKNOWLEDGEMENT

The successful production of Uasin Gishu County Statistical Abstract (CSA) has been made possible through joint efforts of producers and users of statistics despite the challenges faced during the data collection. This collaboration is expected to improve timely compilation of reliable data from county data producers that will meet the expectations of both the users and suppliers in subsequent County Statistical Abstracts.

In this regard, therefore, I wish to express my sincere gratitude to H.E. Jackson Mandago, the Governor of Uasin Gishu County and H.E. Daniel Chemno, the Deputy Governor for providing their support during the entire process in the production of this publication. I also want to thank the County Executive Committee Members, County Chief Officers, Directors and their staff who participated in the process of production of this abstract.

Special thanks go to Mr. Stephen Kihara, the County Commissioner, for his pivotal role throughout the process and the Kenya National Bureau of Statistics for providing technical support which culminated in the preparation of this second County Statistical Abstract. I recognise the contribution of the departmental heads that provided timely data and also participated in the validation of information contained in this publication.

My gratitude to Mr Benjamin Avusevwa, Director Statistical Co-ordination and Methods at KNBS for taking the lead in the development of Uasin Gishu CSA.

I also appreciate the tireless efforts of the CSA Technical Committee that successfully compiled data and produced this Statistical Abstract. The committee was jointly chaired by CPA Millicent Okonjo and John Bore and comprised Charles Rutto, Michael Ndolo, Martin Mutai, Charles Musili, Alfaxad Omwenga, Jackline Masit, Stella Kiptum, Marrion Kiptum, Manasseh Tanui, Fanezar Korir, Elijah Tanui, Catherine Suwai, Daisy Boroon, Henry Osoro, Pius Ng'ang'a, Caroline Gatwiri, Luka Kangogo, Samuel Mwenda, Sarah Omache, Justin Ruto, Katra Dahir, Alphonse Orango, Maureen Akinyi, Bryan Atema and Paul Tanui.

I acknowledge the contribution of the Economic Planning Department and the County Oversight Committee for their role in the production of this Statistical Abstract. I also thank the Editorial teams and the Secretariat for successfully planning, co-ordinating various departments, compiling and producing the 2021 County Statistical Abstract.

Finally, I wish to reiterate the department's commitment in strengthening linkages with various stakeholders to improve the quality of the future Statistical Abstracts.

CPA Julius Ruto
County Executive Committee Member,
Finance and Economic Planning
County Government of Uasin Gishu

Introduction:

Uasin Gishu County

SECTION A.1: INTRODUCTION

This County Statistical Abstract has been prepared by the County Government of Uasin Gishu in collaboration with the Kenya National Bureau of Statistics and other National Government Departments at the county. The Abstract presents a five-year comprehensive primary data and statistical estimates of core areas on economic and social development in Uasin Gishu County. The objective of this statistical abstract is to provide a single source of data that is useful for any form of analytical work on the county. The information is compiled mainly from the administrative records and partly from the recent Surveys and Censuses as shown under each table.

The abstract provides information that include economic, demographic and social aspects in Uasin Gishu County. It is a second county statistical abstract after the first publication in 2015. In cases where the details do not meet the user demand, extra information may be obtained from the County Government.

Structure of County Governments

The 2010 Constitution of Kenya provides for a two tier government structure with one National Government and forty-seven devolved County Governments.

County Governments consist of two arms, namely the County Assembly and the County Executive. The functions of County Governments are contained in the Fourth Schedule of the 2010 Constitution and include: Finance and Economic planning; Roads, Public Works and Transport; Health and Sanitation; Education and ICT; Agriculture and Irrigation; Livestock, Fisheries and Veterinary Services; Trade, Industry and Co-operative Development; Land, Housing, Physical Planning and Urban Development; Water Development, Environment and Natural Resources and Tourism, Culture, Sports and Social Development.

SECTION A.2: OVERVIEW OF UASIN GISHU COUNTY

Uasin Gishu County is located in the North Rift region of Kenya and has its headquarters in Eldoret town. It extends between longitudes 34° 50' east and 35° 37' west and latitudes 0° 03' South and 0° 55' North. The County shares common borders with Trans Nzoia County to the North, Elgeyo Marakwet County to the East, Baringo County to the South East, Kericho County to the South, Nandi County to the South West and Kakamega County to the North West. It covers a total area of 3,345.2 Km².

Administratively, the County is divided into six Sub-counties namely Soy, Turbo, Moiben, Ainabkoi, Kapseret and Kesses. These are further sub-divided into twelve divisions, sixty-two locations and 109 sub-locations. The County also has six political constituencies and thirty wards.

According to the 2019 Kenya Population and Housing Census, the population of the County stood at 1,163,186 with a population density of 342 persons per sq Km. Uasin Gishu County is a cosmopolitan county and is mainly inhabited by the Kalenjin.

The County experiences a high and reliable rainfall with an average annual rainfall ranging between 624.9mm and 1560.4 mm. It occurs between the months of March and September with two distinct peaks in May and August. Average temperatures range between 7° C and 29° C.

The main economic activities in the county include agriculture and agro-processing. Owing to its agricultural prowess in production of wheat, maize and milk on large scale, the County is referred to as 'the bread basket'. The County is also regarded as the indisputable athletics epicenter and therefore referred to as the 'County of Champions'.

The County enjoys a relatively good infrastructure comprising an extensive road network, an international airport and a railway line. It is also connected to the fibre optic infrastructure and enjoys a good mobile network coverage. There are several financial institutions, postal services and a Huduma Centre operating in the County. There are seven gazetted water schemes that supply clean water for both domestic and industrial use. The County also boasts of two public universities, several campuses of both public and private universities, and several public tertiary institutions providing vocational training.

Fig 2: Administrative units of Uasin Gishu County

SECTION A.3: OVERVIEW OF COUNTY GOVERNMENT OF UASIN GISHU

The County Executive

The Executive arm of the County Governments comprises the Governor, the Deputy Governor, the County Executive Committee Members and the County Public Service.

The Governor and Deputy Governor are elected in a general election by registered voters in the County for a five-year term. The Constitution of Kenya, 2010, states that neither the Governor nor the Deputy Governor can hold office for more than two terms.

The Governor and Deputy Governor serve as the Chief Executive and Deputy Chief Executive officers of the County, respectively.

The County Executive Committee Members are appointed by the Governor with the approval of the County Assembly.

The County is run by an Executive Committee, consisting of:

- The Governor, directly elected by the people of Uasin Gishu;
- Deputy Governor, elected as running mate of the successful candidate for Gubernatorial;
- Committee members not exceeding a third (or ten where a county assembly has more than 30 members) of the members of the respective county assembly;
- County Secretary nominated by the Governor and approved by the County Assembly. The County Secretary is the head of public service in the County in addition to their role as the secretary to the Executive Committee.

THE COUNTY ASSEMBLY

The County Assembly is the legislative authority of the County Government. Its functions include the drafting of County laws, general oversight of the County Government and representation of the people.

It consists of Members of County Assembly (MCAs) elected from different Assembly Wards in the County,

nominated MCAs representing special interests such as persons with disability and the youth as prescribed by an Act of Parliament, and the Speaker who is *ex-officio*. The County Assembly headed by the Speaker, who also serves as the Chairman of the County Assembly Service Board.

The composition of the County Assembly for Uasin Gishu County is as follows:

Speaker (ex-officio)	1
Elected MCAs	30
Nominated MCAs	17
Total	48

COUNTY GOVERNMENT OF UASIN GISHU

County Vision

A prosperous and attractive County in Kenya and beyond

County Mission

To provide high quality of life to the residents through good governance, innovation, inclusive growth and sustainable development

Core Values

- *Participation of the people:* we involve our people in decision making on matters that affect their welfare;
- *Equity and equality:* we ensure fairness in distribution of county resources without leaving anyone behind;
Inclusiveness: we will ensure all developments encompasses all members of the society without discrimination
- *Innovativeness:* we are committed to transforming the service provision to meet and exceed the expectations of uasin gishu county residents;
- *Integrity:* in all our undertakings, we are committed to act in an honest and professional manner;
- *Accountability and transparency:* we are committed to be responsible for our actions and continuously improve service delivery, report appropriately to stakeholders and clients;
- *Customer focus:* we commit to place the customer at the centre of our focus in service delivery.

SECTION A.4: OVERVIEW OF KENYA NATIONAL BUREAU OF STATISTICS

Kenya National Bureau of Statistics (KNBS) is a State Corporation in the National Treasury and Planning established by the Statistics Act, 2006. KNBS is mandated to collect, compile, analyse, publish and disseminate statistical information, and co-ordinate the National Statistical System

Vision

To be a global leader in the provision of quality statistical services

Mission

To provide, manage and promote quality statistical services through utilisation of best practices for evidence-based decision making

Core Values

- Professionalism;
- Integrity;
- Confidentiality;
- Customer Focus;
- Innovation;
- Teamwork.

Statistical Domain 1:

Demographic and Social Statistics

SECTION 1.1: POPULATION AND MIGRATION

This section contains population and demographic statistics. The topics include demography, vital statistics, population structures and growth, demographic projections, families and households (marriages, divorces, household size), migration, refugees and asylum seekers.

Excludes

– *Causes of death (Health)*

Notes and Definitions

Density: Refers to the number of persons per square Kilometer, obtained by dividing the enumerated persons in a given area by the size of the area expressed in Km².

Area: Is the extent of a surface enclosed within a specified boundary, expressed in square Kilometers. This excludes areas covered by water.

Birth: Birth is the complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy.

Death: Death is the permanent disappearance of all evidence of life at any time after live birth has taken place (postnatal cessation of vital functions without capability of resuscitation). This definition excludes foetal deaths.

Expected Birth or Expected Death: Is derived from the prevailing fertility or mortality conditions and total female population of reproductive age or the total population. The number of expected births or deaths is calculated using age-specific birth and death rates.

Place of Occurrence: It is where birth or death occurs.

Coverage rate: Coverage rate is basically the percentage of registered events out of the total number of expected events. Although the denominators ideally should be the total number of events which occurred, the actual number of such events is unknown and hence estimated as 'expected events.'

Births or Deaths Registered at Health Facilities: Refer to births or deaths that occur at a health facility and a notification is issued by a health worker at the facility.

Births or Deaths Registered outside Health Facilities: Refer to births or deaths that occur at home and a notification is issued by an Assistant Chief.

SECTION 1.2: LABOUR STATISTICS

This section covers statistics on labour force, labour market, employment and unemployment; the more detailed topics include economically active population, labour conditions, health and safety at work (accidents at work, occupational injuries and diseases, work-related health problems), working time and other working conditions, strikes and lockouts, job vacancies, job creation.

Excludes

- *migrant workers (Population and Migration)*
- *unemployment insurance and unemployment benefits (Social Protection)*
- *trade union membership (Political and other community activities)*
- *unpaid work (Time use)*
- *statistics on earnings, wages and salaries (Labour cost)*

– *labour cost* (Labour cost)

Notes and Definitions

Labour force participation rate: The section of working population in the age group of 15-64 in the economy currently employed or seeking employment. People who are still undergoing studies, housewives and persons above the age of 64 are not included in the labour force.

The dependency ratio: The number of dependents aged zero to 14 and over the age of 65, compared with the total population aged 15 to 64.

SECTION 1.3: EDUCATION

Education – includes educational participation, illiteracy, educational institutions and systems, human and financial resources invested in education, lifelong learning, vocational training and adult learning, impact of education, assessments of student performance, etc.

Notes and Definitions

Public School: A school established, owned or operated by the government (Basic Education Act, 2013).

Private School: A school established, owned or operated by private entrepreneurs and institutions (Basic Education Act, 2013).

Net enrolment rate: Enrolment of the official age group for a given level of education expressed as a percentage of the corresponding population.

Gross enrolment rate: Total enrolment in a specific level of education, regardless of age, expressed as a percentage of the eligible official school-age population corresponding to the same level of education in a given school year.

SECTION 1.4: HEALTH

Health – covers the health and mortality related statistical activities, including topics like life expectancy, health status, health and safety, health determinants (including lifestyle, nutrition, smoking, alcohol abuse), health resources and expenditure, health care systems, morbidity and mortality (including infant and child mortality), hospital admission, causes of illness and death, specific diseases (e.g, AIDS), disabilities, pharmaceutical consumption and sales, health personnel, remuneration of health professions, environmental health status, health inequality, health accounts.

Excludes

- *Work related health and safety (Labour)*
- *Victimisation from criminal behaviour (Justice and Crime)*
- *Traffic accidents and injuries (Transport)*

Notes and Definitions

Health Facility: This is a defined a health service delivery structure from where services are provided e.g., Outpatient, pharmacy, laboratory. Government facilities are the ones which are gazetted and non-Government facilities are registered with the regulator.

Level 1 – Community Health Unit: This is a health service delivery structure within a defined geographical area covering a population of approximately 5,000 people.

Level 2 – Dispensaries: Refers to the lowest point of contact with the public. These are run and managed by enrolled and registered nurses who are supervised by the nursing officer at the respective health centre.

Level 3 - Health Centres: They have a clinical officer as in-charge and provide comprehensive primary care and mainly focus on preventive care such as childhood vaccination. They are medium-sized units which cater for a population of about 80,000 people.

Level 4 – Sub County Hospitals: Are hospitals which are the co-ordinating and referral centre for the smaller units. They usually have the resources to provide comprehensive medical and surgical services. They are managed by medical superintendents.

Level 5 - County Hospitals: These are regional centres which provide specialised care including intensive care and life support and specialist consultations. These are referral points for the sub county hospitals.

Level 6 - National Referral Hospitals: Refers to National referral hospitals offering very specialised services. They include Kenyatta National Hospital, Moi Teaching and Referral Hospital, Mathari National Teaching and Referral Hospital, etc.

SECTION 1.5: SOCIAL PROTECTION

This section presents information on activities and programmes of women groups, youth groups and funds disbursement to the vulnerable groups such as the elderly, persons with disability and orphans and vulnerable children. It outlines the measures put in place by the National and County governments to protect people against the risks of inadequate incomes associated with unemployment, ill health, disability, invalidity, old age, parental responsibilities, or inadequate income following the loss of a spouse or parent, etc. It also includes statistics on pension beneficiaries, social security schemes, and social protection allocated and disbursed funds.

Excludes

- Insurance companies as economic actors (*Banking, Insurance and Financial*)
- Pension funds as actors in financial markets (*Banking, Insurance and Financial*)

Social Protection

Statistical Domain 2:

Economic Statistics

SECTION 2.1: ECONOMIC ACCOUNTS

This sections gives details on Gross County Product. Gross County Product (GCP) is a measure of how much each county contributes to Kenya's Gross Domestic Product (GDP) and may therefore be interpreted as the "County GDP". The GCP measures newly created economic value through production of goods and services in a specific county. The compilation of GCP is in accordance with international guidelines on estimation of regional gross domestic product. The GCP estimates are meant to address increased demand for county economic statistics such as size, growth rate, and structure of the economies. The GCP analytics show that while some counties have a small contribution to the national GDP, they have greater potential for faster rate of growth and potential for catch-up with the dominant contributors.

Gross County Product

Table 2.1.1: Gross County Product by Economic Activities at Current Prices, 2013-2017

Economic Activities	Current Prices, KSh Million				
	2013	2014	2015	2016	2017

SECTION 2.2: BUSINESS STATISTICS

Business statistics – economy wide statistics on the activities of enterprises, covers work on economic statistics across different sectors (as opposed to 2.4 that deals with specific individual sectors), deals with topics like statistics on economic activities of enterprises, business demography, business investment, business services, demand for services, industrial performance, enterprises by size class, industrial production, commodities, structure of sales and services, outputs of the service industries, non-profit institutions.

Excludes:

- *business tendency surveys (Macroeconomic statistics)*
- *International trade (International trade and balance of payments)*
- *Prices (Prices)*
- *Labour cost (Labour cost)*
- *Science and technology (Science Technology and Innovation)*
- *ICT (Information Society)*
- *Activities of foreign affiliates and multinational companies (Globalisation)*

Notes and Definitions

Data presented comprise revenue collection from single business permits and number of licensed Businesses.

Single Business Permit: The permit allows for the conduct of business or trade within the county. The permits are issued by the County Governments. All single business permits expire at the end of every year and there is a period within which renewal must be done.

Business Statistics

SECTION 2.3: AGRICULTURE, FORESTRY AND FISHERIES

Agriculture, forestry, fisheries – includes all agriculture, forestry and fishery related statistics, e.g agricultural monetary statistics (agricultural economic accounts), agricultural structures (farm structure), trade in agricultural products, agricultural labour input, crop and animal production, agricultural commodities, agro-industry statistics (including food production and safety), organic farming and organic food, government expenditure for agriculture, fishing and forestry, products source and use tables, forest and forest product statistics, forest resource assessment and forest fire, trade in forest products, fisheries.

Excludes

- *Agricultural and similar prices (Prices)*
- *Rural development (Regional and Small Area statistics)*

Notes and Definitions

Agro-Ecological Zones (AEZ): Refer to the Division of an area of land into smaller units, which have similar characteristics related to land suitability, potential production and environmental impact.

Crop Production: Refers to the actual harvested production from the field and excludes threshing losses and that part of crop not harvested for any reason.

Agricultural Area: refer to area under the crop or the area harvested. For a particular crop, the area reported is on what has been harvested.

Land potential: Capacity of land to resist and recover from degradation.

Aquaculture: This is the farming of aquatic organisms such as fish, molluscs, crustaceans, plants, crocodiles, alligators and amphibians.

Horticulture: The art of cultivating plants in gardens to produce food and medicinal ingredients, or for comfort and ornamental purposes.

Livestock Production: Management and breeding of domestic livestock or farm animals for the purpose of obtaining their meat and products.

Farm gate Prices: The value of production given in this report uses farm gate prices as the basis of valuation of the production from the County. Farm gate price is the price paid to farmer at the farm level and hence excludes margins on transport.

Hides and Skins: A hide or skin is an animal skin treated for human use. Hides are defined as “skins” of large animals e.g cow, buffalo; while skins refer to “skins” of smaller animals, such as goats, sheep, deer, pigs, etc.

Agriculture

SECTION 2.4: ENERGY

Energy - energy supply, energy use, energy balances, security of supply, energy markets, trade in energy, energy efficiency, renewable energy sources, government expenditure on energy.

Excludes

- Energy prices (Prices)

Notes and Definitions

Pump Prices: These are the maximum retail petroleum prices calculated by the Energy and Petroleum Regulatory Authority in accordance with Legal Notice No.196 of 2010.

Last mile Connectivity: A government initiative to connect Kenyan households to the National electricity grid.

Lighting Services: Includes street lights, flood lights and solar lights.

Energy

SECTION 2.5: TRANSPORT

Transport – covers statistics on all modes of transport (air, rail, road, inland waterways, sea), includes topics like transport infrastructure, equipment, traffic flows, personal mobility, safety, energy consumption, transport enterprises, passengers and freight transport, transport sector trends, road traffic accidents.

Excludes

- Transport prices (Prices)

Notes and Definitions

International Trunk (Class A) Roads: Class A roads comprise international trunk roads linking centres of international importance and crossing international boundaries or terminating at international ports or airports, e.g., Uganda Road.

National Trunk (Class B) Roads: Class B roads link former provincial headquarters and other important centres to the capital, to each other or to the international road network.

Primary (Class C) Roads: Class C primary roads link provincially important centres to each other or higher class roads; this has been reinterpreted more recently to mean linking district headquarters to each other and higher level roads or centres.

Secondary Roads (Class D): Roads which link locally important centres to each other, or to more important centres or to a higher class road (e.g., divisional headquarters).

Minor Roads (Class E): Roads which link to a minor centre.

Transport

Table: 2.5.1: Kilometres of Road by Class, Type and Sub County, 2020

SECTION 2.7: GOVERNMENT FINANCE, FISCAL AND PUBLIC SECTOR STATISTICS

Government finance, fiscal and public sector statistics – all statistics related to the government sector, including debt and deficit, revenue and expenditure, accounts of the government sector, central government, tax rates and revenues, tax and benefit systems, financing of state pension and other state social security schemes, public sector employment.

Excludes

– Government expenditure in specific areas, like Health, Education, Research and development, etc.

Notes and Definitions

Equitable Share: These are Funds established under the Article 217 of the constitution. The parliament shares vertically between the national and the county governments. The money comes from the ordinary revenue the National Government raises nationally. The Senate then allocates the equitable share for the counties from the vertical share horizontally among the 47 counties.

Conditional Allocation: These are additional allocations from the national government's equitable share of revenue (from the vertical sharing).

SECTION 2.8: PRICES

Prices – covers any statistical activity dealing with prices, including Purchasing Power Parities (PPPs) and international comparisons of GDP, covers topics like Consumer Price Indices (CPI), inflation, Producer Price Indices (PPI), price indexes for specific products and services (e.g Information and Communication Technology products).

Excludes

- *Interest rates (Banking, insurance, financial statistics)*
- *Wages (Labour Cost)*

Notes and Definitions

Retail and wholesale prices are collected every week from the retail and wholesale markets, respectively, to determine the variation in both retail and wholesale prices. Weighing scales are used to measure the quantity of the commodity to convert non-standard units to standard units.

Agricultural Prices

Table 2.8.1: Average Retail Market Prices for Selected Commodities, January-December, 2020
